Aligned to Ohio's Learning Standards for Social Studies

Emphasizing historical thinking, cultural literacy, geographic understanding, and evidence-based inquiry across all grade levels:

Standard	Grade	How History Unboxed Addresses It
Ohio SS K–2 (History strand) — Students use historical thinking skills to understand how change occurs over time and how people of the past are connected to the present.	K-2	Modules anchor early learners in a historical time and culture through narrative and a period-authentic craft, making abstract historical concepts experiential.
Ohio SS 3–5 (World Studies strand) — Students compare the cultural and historical contributions of world civilizations and identify patterns of cultural interaction.	3-5	Culture-specific modules on ancient Egypt, feudal Japan, Indigenous Americas, etc. map directly to Ohio's world studies scope through primary source activities.
Ohio SS 6–8 (World History strand) — Students analyze the emergence and development of civilizations, including their political, social, cultural, and economic characteristics.	6-8	Modules on ancient civilizations directly support Ohio's Gr. 6–8 world history scope, engaging students through artifacts and primary source analysis with narrative content.
Ohio SS 9–12 (World History strand) — Students analyze the continuity and change in world civilizations and evaluate the contributions of diverse cultures to human history.	9-12	Secondary modules support Ohio's emphasis on civilizational development/cultural contribution, offering students an artifact-based entry into complex historical topics.
Ohio SS (Historical Thinking strand) — Students develop the skills to think chronologically, interpret primary and secondary sources, and construct historical arguments.	K-12	Activities and booklets build source interpretation and chronological reasoning. Student-made crafts provide the most direct form of historical thinking available in a classroom.
